The great majority of Canadians will be delighted price of the over-all results of the election - the vote itself shows that. Most Canadians was the control of the control of the election - the electio aboves that. . Most Canadians even those who are not rvatives, will grant that it is an excellent thing that the Conservatives will govern with the support of cast the Conservatives will govern with the support of Guebec. With the exception of supporters of the CCF, and the Social Credit, there will probably be general insultration at the breaking of the hold which these "spitnier parties held in the provinces of Saskatchewan and Alberta respectively and the return of these two specious of Canada to the national fold, so to speak." But when all these results are added together, there will be many even among the Conservatives who will see some danger in a victory so overwhelming.

This was brecast by the first returns from Manitoba, one Conof several by the first returns from Manitoba, one Con-plerfative elected, eight Conservatives and one CCP-er-Taking, in a province in which the Conservatives had pilled eight seats, the CCP five and Liberals one in the last flouxe. It was then evident that the West was the control of the Conservatives. It was announced flow Lester B. Pearson, leader of the Liberals, had conceded the election to the Conservatives. It may well have been the Manitoba returns which wheel out his last allm hopes. Two bours after the polic closed here and an hour before the voting ended in British Columbia the results to the control of the CCP and Servatives would have imagined that the CCP and Servatives would have imagined that the CCP and Servatives.

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

The "Porties" and the grand people that live is Thumins, South Perceptise and other centers of that puri of the sub-Arotic circle, liked the McPariands hockey citch. As individuals, that is. As a hockey club, not so wall.

The fighting finish of the Porkies when they took the Mass Into overtime before saying a reluctant "uncle" last Thursday night, did more to instil into northerm minds that they had a much better club than they thought—and the Macs were not to "hot" as first estimated.

It seems odd that while the Timmins hockey people gave helf Porkles such a tremendous build-up after the game hey should tear the Mass spart in the same breath. For hattance the Porkles coach, Nomie Woon said, "We have seen much better defence right in our own legue in the past we years than the Macs have right now."

While it is true the Perkles put up a desperate, hardfulkthag battle in an effort to snatch a victory last Thursdy, If their performance here in the two pervious generals is a criterion, their last-ditch sland any them play away over their heads. The Moss had illute trouble defeating them here when they were at full strength. Again we repeat young Mr. Kobo was the big finger in the dybe.

Mr. Erpie Goman, master-mind of the Kitchener Dutch-n, must thrive on surprises. Also his optimism knows-bounds. He was so sure his Dutchmen would take the addor Bulldogs last Saturday night he would have bet to of hometown veleners, with a couple of barrets of sauer-unt tossed in, on the event.

In fact Mr. Genen, was SO sure of the fact that he telephaned Belleville and saked to have the McFarlands leval; their journey home from Tinnian, and go on in Kichener from Toronto to need the Dulchles on Saturdry sight in the first till of the all-Oniario series.

How did Mr. Gomen know that the OHA would coun be move—or did he know the first game of the sen ds was scheduled for the east?

However, the genial optimist, who is gradually be-suming acceptoned to join—said he had better be—was said he had better take care of the Bulldogs from routh of the Detruit. Elver before talking turkey to the McFar-

What about the Chemise?

So many people have saked our advice about the chemise that we are prompted to make this public statement on the subject.

HERE IS WHAT WE THINK:

- 1. We believe the chemise, as modified by our American designers who know the Canadian woman, will be an important fashion and will be with us for some time.
- 2. But we believe that the chemics will not monopolize the fashion scene because there are other equally important fitted and zen-fitted clothes, and we believe women should not permit themselves to be ied astray by too much propaganda.
- 3. Our advice to fashion conscious "Buy what is most becoming

Ctainless teel puts a lasting smile on the face of a building

Everyone knows that in time, the face of a That's the economy of stainless steel curtain Everyone knows that in time, the lace of a city can get perty grimy. Now Il needs to ever. That's the beauty of this modern method of building... stainless steel curtain wall construction. The bright, smooth surface on the outer wall of a building washes clean with every rainfall. Upkeep expense il negligible.

Curtain wall construction costs less in the Curtain wall construction costs less in the long run. The walls go up in panets quickly and easily. They reflect smilight. They won't crack or buckle. Stainless steel curtain walls are less than half as thick as masonry walls, allowing more useable space. The walls weigh less, too. Builders can use lighter—well as seetly the seetly continued to the seetly seetly and the seetly seetly seetly and the seetly and less costly-steel columns.

That's the economy of stanless steel curtain wall construction. It explains why a number of new buildings will have these bright, shiny, rust-resistant stainless steel outer walls. And Inco supplies nickel to the Canadian steel company that produces stainless steel,

Nickel helps give stainless steel its rich, silvery istre and its exceptional strength . . makes it easy to fabricate. Small wonder that fine tableware, modern sinks and so many other beautiful and practical items for the home are now made with nickel-containing stainless steel. Another example of the way Inco metals serve the Canadian industries that serve you.

Inco has recently published a colourful and beautifully illustrated 32-page bookiet colo Canada's Important ackel ladastry, cutiled "The Exciting Story of Nicket", its written primarily for Canadam vouth by Alan King, but callast will also find fall of Interesting Information, Just write to Inco for a free copy of this bookie

MOY AND GIFE

FRANKORD Missionary Of Northland Tells of Work THE DIESEL FIREMAN DISPUTE ON CANADIAN PACIFIC

TWO YEARS AGO, in April 1956 the Firemen's Union demanded wage increases and other benefits involving substantial increased costs;

AT THE SAME TIME Canadian Pacific proposed that, as firemen were not necessary, they should no longer be carried on diesel locomotives in freight and yard service.

CANADIAN PACIFIC also proposed dropping both arbitrary wage payments for which no service was rendered and differential wage

IN DECEMBER 1956 a Federal Board of Conciliation recommended substantial wage increases and other benefits. At the same time, it found that firemen were not required on dissel locomotives in freight and yard service and made provision for protection of their employment. It also found that payment of arbitraries and mountain differential should be modified.

CANADIAN PACIFIC accepted the Conciliation Board's report.

THE FIREMEN'S UNION rejected the report and called a strike on January 2, 1957.

THE STRIKE WAS ENDED on January 11, 1957 on the following basis:-

- es refroactive to April 1 iil the previous year and other ber Canadian Pacific agreed to pay the substantial wage increases recommended by the Conciliation Board.
- The Union and Canadian Pacific agreed to refer the DIESEL ISSUE as well as payment of arbitraries and mountain differential to a ROYAL COMMISSION.
- The Union and Canadian Pacific agreed to suggested these laws in the light of and issuadiately following the publication of the ROYAL COMMISSION'S Report.

THE KELLOCK ROYAL COMMISSION of three senior judges devoted ten months to hearing 119 witnesses and, at the request of the Firemen's Union, made an-the-ground investigations across Canada and also made observations on four major European railway systems. Il was the most extensive and thorough investigation in the history of labour relations in Canada.

IN ITS UNANIMOUS REPORT published February 4, 1958 the ROYAL COMMISSION found that:

- 1. Firemen are not required an diesel locomotives in freight and yard service on Canadian Pacific either for safety or any other reasons
- 2. The proposal of Canadian Pacific for protecting firemen from loss di employment and seniority is fair and gene
- Arbitraries have become unrealistic and should be dropped and payment made on the basis of service rendered.
 Monatoin differential payments should be dropped and replaced by valley differential.

CANADIAN PACIFIC recepted the report of the KELLOCK ROYAL COMMISSION as it had undertaken to do when the Commission

THE UNION rejected the report, stating that nothing in it was acceptable to them. They did so knowing that not one fireman would IME UNION rejected the report, stating that not nothing it it was acceptable to them. They are so knowing that not one treated work made suffer loss of railway employment who was hired before the proposal to discontinue firemen on freight and yard diesels was made in April, 1956. All across Canada there are less than 100 firemen hired after that date and now working who face possible lay-off.

ALL EFFORTS of Canadian Pacific to settle the dispute through negotiations with the Firemen's Union have failed.

FOR TWO YEARS firemen have enjoyed substantial wage increases. During these two years action on the diesel issue has been postponed while the Union had every contention it could advance investigated by two enquiries.

CANADIAN PACIFIC has a duty to the public to operate the railway efficiently and economically

CANADIAN PACIFIC, to fulfill this duty, has given notice to the Firemen's Union that the findings of the KELLOCK ROYAL COM-MISSION will take effect on May 11, 1958.

THIS ACTION is in accordance with Federal labour law.

Deputy Trade Minister Mitchell Sharp has decided look for another job. Hon. Gordon Churchill, Minister Trade in the Diefenbaker Government, announced on of Trisis in the Dielenbaker Government, announced on Monday that Mr. Sharp has added for "several weeks leave of absence" to Investigate "several attractive offers." That is how The Canadian Press reported the situation. There seems some contusion here. The two Thronto, evening papers both carried staff dispatches abating categorically that Mr. Sharp had resigned. The Octawa Journal and the same thing, and actually control to the control of the Contro oted Mr. Sharp to that effect.

quoted Mr. Sharp to that effect.

There is quite a difference between the two situations. For the sake of argument, let us suppose that it case on the basts of this supposition.

Mr. Sharp was the author of the so-called "hidden report" to the St. Laurent Cabinet early last year, in which a trade recession was predicted. Prime Minister is the contract of the contr

Canadian Theatre in Two Languages

Canadian playwright-actor-director Gratien Gélinas beams his astisfaction as he gazes out over a scale-model of his new theater "La Comédia Canadianne" which opened in has designed a theatre believed as he unique in Arroll Montreal recently with Jean Anoullis "L'Alcourer". The building emberces some of the most advanced features of contemporary theatre planning. Furformances are given in both French and English — the end of a 11-year term for producer Gelinas.

National His Bosel of Canada Phones by Clerk Lond

The talented and lovely Ginette Letondal, who was hailed by critics for her performance at Canada's Stratford Festival 2 years ago, portrays the Maid of Orleans in both the English and French versions.

Set designer Jacques Pelletier (right) has succeeded in creating a dramatically simple free-flowing "space set" against which the great moments in the life of Joan of-Arc are highlighted. There are no specific limits on either side of the set, background fades into a dense darkness out of which actors emerge and then disappear.

Unusual lighting effects are used to croke the various scenes of the play, eight separate sources of light being blended by a complex switchboard exclusive to the Comdition Canadienne. The play unfolds in a luminous atmosphere against which cateboard palace, and dangeon scenes are painted with a rich and judicious use of light.

WE GOT A REAL TRUCK!

"Wouldn't use any other make!"

"The first truck we bought when we went into business 10 years ago was a GMC one ten panel job. Of the 25 trucks purchased since then, ills have been from Gent's trucks purchased since then, ills have been from Gent's Motion. We need reliability—our trucks have to stay on the road, seven bourn a day, site days a week. One trucks give su that reliability. When things do go wroad, we need fast service and we get it from our GMC desics. Wouldn't use any other make [4]

"GMC provides the greatest selection of all!"

"These new 9600 Series state body models are already giving good service-on every leind of road-with all manner of loads. About GMC in general, we know that for G.V.W.'s, models, engines, askes and transmissions — every possible specification — GMC provides the greatest selection of all?"

"Our drivers really like GMC's!" W. H. Male

"We have relied on the efficient performance of GMC "We have relied on the efficient performance of the Crucks for many years and have always found them completely satisfactory. Maintenance costs have been low and our drivers really like GMC's! Now, with our new '58 models, we are anticipating even greater success and satisfaction for the future."

The report deals with the commutation to life impris-onment of the death sentence imposed on Nicholas Rebalkin, 40-year-old Itinerant laborer, who shot and illed a Toronto taxi driver when the latter refused in urn over \$15. Rebalkin admitted the murder. The jury made no recommendation for mercy. There was

of mercy. Inner was most populated to a higher court.

"It is believed," reports the Globe and Mail, "both Mr. Fullon (Justice Minister E. D. Fullon) and Prime Minister Dielenbaker have strong personal feelings against the death sentence. Hitherto sentences have usually been commuted where there was a jury recom-mendation of mercy or where there was provocation or other evidence favorable to the accused. The decision in the Rebalkin case where none of these factors existed has led to speculation (in Ottawa) that while the death septence will remain in the Criminal Code and judges will be legally bound to impose it, the Diefenbaker cabinet will see that it is not carried out."

Many Canadians share the aversions which Mr.

Fulton and the Prime Minister are said to hold for the death sentence. This, though, is not the way to change the law and Mr. Fulton and Mr. Diefenbaker, as disthe law and our rules and har. Derenosaer, as our-tinguished members of the bar, should be the first to recognize this fact. A case might is made out for commuting the sentence of Rebalkin, provided at the earliest opportunity a bill is presented to Parliament to ampend the Criminal Code and abolish the death sen-tence. But is follow the course suggested in the Globe

Boston Back On Home Ice Confident They Can Take Lead Over Habs By Jimmy Hatlo

Sport Slices

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

He said, refarring to the broken puck, that it actually pound in a Tacuma-Vancouver game in the Western gue in 1850. The referee allowed the goal after one half the puck went into the net.

Mr. Peirick said there is falk about a curved blur-lies. It would curve in feward the guille. The way, if the centre has the puck at the hinkline, then has wings read to marke 19 or 18 feet about of thm. That is one ray the offence could be halved if it was fell enough any the contract of the could be about a set of the order of the could be about the could be a only order to the could be about the could be a order of the could be about the could be a order.

He predicted that professional hockey would reach west coast with Los Angeles and San Francisco the may effect to join the NRIL. He said they are building 500-sent areas in Los Angeles now. Players would come in the protected libits of the six other NRL clubs.

Don't look now but there is a possibility of district base-hall of a senior type being revived in these parts come

Mr. Nicholis and the suggestion is under canadera-tion and Picton has signified its williaguess to cuter. A necting is being called in Mingston to which representa-tives of the clubs mentioned will be lavited.

Plymouth prices are lowest!

Model for model, the '58 Plymouth costs less money than any other leading make of Canadian car. Yet in looks, luxury and years-ahead features, Plymouth offers you far, far more!

Did you know, for example, that Plymouth's Tomon-AIRE Ride (which doesn't cost you a cent extra) is unequalide even by "special" ride systems that add as much as \$150 to the cost of other cam? ag much as \$150 to the cost of other cars?
Did you know that Plymouth's TotalContact brakes are the most advanced on
any car—and don't cost a penny extra?
Did you know Plymouth is the lowest

Everything about it says tomorrow!

Like to try something wonderfully different?

Just take the wheel of a De Soto . . . and take to the open road!
But hang on to your heartstrings when you too-tap that hig new
high-spirited V-8 into action. Because this long, lean and live
beauty has a habit of stealing the hearts of those who lose fun

You'll know it the moment you meet a marvellous new De Soto, For nothing about the ear is ordinary... from trim, taut, exciting lines that flow with fresh originality, to the soft, sure way it handles the toughest roads. You'll find yourself woudering what other cars can offer in the future that De Soto doesn't give you today.

But don't wait to sample the excitement that can only be yours in a De Soto. Slip behind that magic wheel soon . . . and be whiked away from the commonplace with one thrilling, heart-stealing ride in a beautiful new De Soto.

J. J. Worren's SEX-SAL-LINK!

In keeping with Swift's policy of always offering you the Pick of the Nation's Bloodlines, we are glad to announce that arrangements have been made for the production and asle of J. J. Warren's new Sax-Sal-Link Layer.

new Sex-Sal-Link Layer.

The Sex-Sal-Link has an outstanding record in official egg laying tests throughout the county. In the 1866 Storre egg laying test, the Sex-Sal-Link placed third out of 102 penfuntered, with production of 285 eggs per her should. This is 64 more eggs than the average of Roused. This is 54 more segs than the average of all birds entered. The Sex-Sel-Link has also, time after time, in side-by-side tests, proved itself a bird of great production and high feed efficiency!

Now is the time to order money-making Sex-Sal-Link layer chicks for your flock. You can get these and other fine Swift chicks by contacting:

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

Mr. Jack C'Reilly of Kelowna, R.C., is blessed with a sensu numer—also disdain for what a certain eastern hockey a might do jo his western club.

Mr. O'Rellly, in case you don't know, is the coach of the Relowan Fachers, an agregation of pushchnors who won the western solder lockey changiouship and are shaled to do combin with the Belleville Hell-stands for the Alian Cup starting Monday night.

The gentleman with the Irish monther request to be red by alleged reports that his Packer boys are rated un-does in the forthcoming detes with the McPariands. Where report or reports came from we do not know unless it is the prediction by some of the Mrars to the effect they add take the series in six genue, neebbe more, mebbe less.

See Bittee O'Reilly, "Out here we either out Mace-threw these away," He had in mind of course the Bit-desh apples which gree in previous in the heautital Di-nagun Valley and which are the pride of the people out-

He mays his Factors have bestem out three other he "in a league that is considered by many to be the angued centler." Nangue in Canada, and anybody who aim to going to have to be good." We treat Mr. editing Tallane, and we are mare be deet, that any club it wins the Existen Chandin scales. "A" chantoleoxidy is to be good, too. And the Blace are just that.

The Kelowna club finished on top of its four-text. Ok-asgan senior lespee and came through the semi-timals and analy playoffs. They went on to defeat the Rossland War-ors, champland of the Western International Leapue in the ritish Columbia playoffs.

It took them jost five games to sweep aside the Win-ner Marsons, Hantloba champions for the aft-western ampionship, and now they are policed and ready for universe from them from the oast. They will know they we been in a ball-game before the final whistle shrifts

The No. 3 line, a trio that has shown up well in the play-s, is centred by Bill (Bugs) Jones, with wingers bloc mer and Miles Durban.

Jisa Biere, Greg Jahlenski and George Agar comprise line Nu. 3. Mare and Agar are replacements from Ver-sen. Canadians. Expected back in the lineup is centre Jos Ekalery, who has been out with a log judgery since just before the sorties with Winnisse.

The magnificent new

cool beauty with a fiery spirit

This is the motorcar you hear about , . . but rarelyever hear, It's a whisper on wheels. So quiet, so smooth you hardly know there's an engine beneath its long, graceful hood.

But just let a hill loom up ahead, and suddenly you realize what vast power Chrysler's big V-8 actually delivers. Brilliant, flashing power, under the fine discipline of Chrysler's push-button drive, most advanced of all automatic transmissions. The kind of power that almost seems to walt you up steep grades . the kind you know is always firmly in hand . . . always beautifully controlled.

To command such performance, of course, gives you an immease feeling of

YOU'RE ALWAYS A STEP AHEAD

confidence. There's confidence, too, in the velvet smoothness of Chrysler's splendid ride . . . and confidence in its uncring road-sense. You can take as much pride in these qualitism as you do in Chrysler's long, sleek beauty and its obvious prestige.

Wouldn't you like to experience this entirely different erful feeling in a motorcar? It's just as and wonocrlul tecting in a motorcar? It's just as easy as dialing our telephone number. So why not do it soon? We'll bring a new '58 Chrysler right to your door—along with some pleasing news about prices. For if you're like most people, you'll find

that while this big luxurious Chrysler-gives you more value for what you pay, it costs less than you think!

Just what the customers ordered!

"The customers"—are you!

And pleasing people is Pepsi-Cola's business.

When you let us know that you liked your refreshment on the light, side—in keeping with the trend toward trimness and slimness—Pepsi-Cole was made to conform of these changing tastes.

And now—sgain in reply to your requests we present a new single-drink-size Pepui in a smart spiral bottle!

This newest member of the Pepsi-Cola family awaits you at your local store, where you work and play, and at restaurants all over town.

To refresh without filling say "Pepsi, please"

This is it. This is the big night the McForlands the sold test of Allan Cop competition when they meet the Kelowan Packers in the first game of the series for the

Both feases are quietly confident. The Mass, winners of the Eastern Ontario League, and conquerters of the powerful Michaeur Dutchmon, chungdoon of the OtiA-NORA league, South Parcenhon and Levis, Quables representing Enterer Canada, feel they can set back the wastern Canada changeing in aby games.

Kelowas Packers, on the other hand, hoast they are cham-pions of the strongest settler "A" league in Canada, and have also defeated other British Columbia champions, besides the best of the rest the west could product.

The Kelowan coach faceticusty, dubbed the Macs another castern "Cindercella" team with a gillitering coach supposedly represented by H. J. McFarland. The Cindercella team of lish year, the Whitip Dunlopa, easily turned back the Spokane Flyers in the Allan Cop series four games to nothing, after defeating the best in the sax:

'Incidentally' the broadcast of the games out west will be the air at 11.35, instead of midmight, so C1BG's Tom solving informs us. There were some stories going to be under the ignors would be aired at 11.00. This is not

What truck buyers can learn from the big Fargo fleets...

Look behind the scenes and you'll soon discover why more and more haulers are making the swing to FARGO. When are making the swing to FARGO. When successful fleet operators such as Kleyson's Cartage Company, Limited, Winnipeg buy forty big Fargos at once, you know Fargo's got something special to offer!

Kieyam's Cartage typifes the truck fleets that find real day-after-day, year-after-year satisfaction with Pargo on the job. There are plenty of reasons for that satisfaction, too.

Take economy, for instance. New Fargo V-8's pack up to 224 horsepower, yet their unique combustion chamber design wrigs become miles from every tankful of gas. And no other engine has the famous-for-thrift reportation of Fargo's efficient Six!

Ruggedness is another reason. Fargo rear axles in all models are heavy-duty engineered, specially treated for fatigue-resistance. Rear springs on high-tomage D700's have been increased to 3 inches wide, are extra long and resilient for greater strength. Frames have dothels width from commensures, and extra-deep contra and

Fargo's a better deal for the driver, to with shorter turning diameters, smoot super-responsive steering, an independe parking brake that adjusts from insi-

ine cap.

So why not follow the lead of successful truck operators like Kleysen's Cartage Company, and check into '56 Eargo Power-Masters now? Come in right away—see how you're further shead when you haul the FARGO way!

"It's a red-letter year for Canadian fashion," says Gwen Cowley, Toronto Star Fashion Editor. "This year for the first time we are Gwen Cowleyabreast of the times. The Chemise is as prominent here as in the New York collections." And you can bet your bottom pattern first to pinpoint that Miss Cowley knows, because she has covered the fashion capitals of the world for Ill years. She and her staff are experts fashion's at keeping you informed about what the world is wearing. They are one of the reasons why so many women agree that for complete coverage of the woman's world, fine points! The Toronto Star is Canada's greatest newspaper value.

A FINE CO-OPERATIVE REPORT

Many Canadians have reason to be thankful for th existence of the Blue Cross plan for pre-paid hospital care. It has served its subscribers well; so well, in fact that its existence was advanced by those opposed to a government hospital insurance scheme as one of the government computer instantace contacts and the transport of the reasons why such a plan was unnecessary. Unfortunately, not everybody was able to obtain Bitse Cross coverage. The government plan will when the scope of the protection against financially-crippling hospital

The role which Blue Cross will play will be diminished, but not eliminated. Here in Ontario II will provide for subscribers an opportunity to supplement the protection given by the government plan by providing for semi-private ward care, rather than public provining for semi-private ward care, rather than public of ward care. Many people priefer such care. It is to be sepected that most of those Rise Cross subscribers by whose contracts now provide for semi-private ward care it will supplement the government scheme with Rise Cross coverage when the government plan gos lato of effect in Outario the first of next year.

Since PSI already offers similar coverage, it has the machinery set up to service such contracts and Bits of Cross subscribers will thus continue to be served at the lowest possible cost for

We think that congratulations are in order all around, to the Ontario Hospital Services Commission, let to Bise Cross and the PSI, for a heart-warming demonstration of the value of co-operation in keeping costs of these services to a minimum.

SOME INSECTS ARE FRIENDS

FIT FOR KIDS

The Vancouver Province recently took the television justry to task for "the mush II has been inflicting on

Although we do not hold with the view that wh the television industry offers the public is strictly the television industry's own business, there have been so many criticisms of TV of late that we should not labor the point were it not that one observation by the Province appears to us to have much wider application.

The Province notes that "Mr. Desi Arnaz, one of the chief purveyors of insiple 'situation' episodes" has said that "only quality stuff will draw an audience." The Province then adds: "Mr. Arnas promises clean shows. There will never be any need to send the kids to bed n we come on.' Presumably only adults will be driven bedwards by Desilu drama. Mr. Amaz equates 'quality' entertainment with that which is not dirty."

It seems to us that Mr. Arnaz'is not the only person who is convinced of the validity of this questionable equation and that not all the people who believe as he does are in the television business. Perhaps, for the sake of clarity, it ought to be stated in black and white sake of clarity, it ought to be stated in black and white that the trouble with the equation is not the contention that the absence of dirt is essential to "quality" but that this mere absence ensures "quality." There is nothing quite so dull and uselese as some of the things which are purveyed as "wholesome family entertainment."

Those who contend that every television show, or every movie, or every book should be fit for "the kids" to see or read might not threaten the average intelliam adult with such crushing boredom if they were of so straight-laced about what they consider fit for midren. We hold to the view that what a child can

efficient. We hold to the view that what a child can infly understand, and comprehend is fit for a children are not as increased in the property of the control of the cont

Newspapermen often privately lament the limitalooks placed on the information they print by the fact that papers must be "fit for family consumption." A better that papers must be "fit for family consumption." A few years ago will convince one that even the most reputable journals have decided that the limits they

reputation and and occurrence and the control of th program are in bed. It seems to us that "family fare has no place in those house no place in those hours.

If the television industry would follow this policy.

However, here is the story as Roy gives it to h

"Emms these Alian Cup games, I'll find myself watching to 'honor' teams. Believille is not my home team, but it said be called my home et yas. Bit is the nearest tip to Pricton, but it is the nearest tip to Pricton, and it is to Believille that the people of Fisch go to do their out-of-town shooping. That is, when they not go to Toronta, another 100 miles:

*Dialances are short in Ontaria, Take the Believitle m, for instance. Believille in a city of 20,468. Ten miles my in Trenton, 11,349; Picton 20 miles, 4,380; Napance, 25 (ed., 4,221; Kington, 50 miles, 47,969; Deseronte, 11 miles, 10; Campbellford, 3,381.

To this might be added a whole host of smaller places. Moder, Preed, Stirling Frankford, Wellington and a number of others. And then there is the rural population of the counties of Hartings, Lenoux and Addington, Prince 25 and Northumberland. A concertaint fluor would longer that the Belleville backey item this a population of 20,000 from which it can draw Support.

"All this has been prompted by a growing irritat ck of Canadian geography that has been displayed on r and over the arena P.A. system in recent days.

"In the first place the name is Believille-not Believue has been so treely bandled about.

"I more nothing about the hockey team, but there is one golds which may enter some contraion. The team is called "Ellerthin Morphands." It ill fanced by Harry Morphands, "I all fanced by Harry Morphands, "I all fanced by Harry Morphands, "I all fanced by Harry Morphands," I all fanced by Harry Morphands, "I be fanced by Harry Morphands," Yes, that is right. He is most mayor of Selleville—with, if I remother, is a womats." [Ed's note.—Her Worthip, Mayer Jane Forrwise,)

"How then does il happen that the mayor of Picton sub-izes the Belleville team? McParland is beed of a large struction company which deperates all over the province of taric: highways and airports and such things.

Contrice highways and aurous as occurred.

"Shortly before I came to Kelevan Harvey McParland had had a small highway contract north of Napanes. He obtained a contract for a stretch of highway, five miles, between Picton and Glesora. He had a coughe or three trucks at that time and I think was operating on a sine string.

"There are make stories about McFarland. One in-restinc because it was sconething of a departure for an dustrigation was that at Christmas a few years ago be gave money to be distributed among all the churches of these Edward County. I'm no durar how many years this ent on but I'do know it did happen one year at least.

The greatest obstacle which a leader of a party in opposition faces is the difficulty ## attracting able young men to his banner. He has, howers, some compensations. Those he does attract are likely to be men of strong political convictions. When their day does arrive, the strength of their political principles often proves to more than offset their lack of training in the duties of office. More Rice for Asia's Millions

As part of its Colombo Plan sid, Canada has sent plant pathologic Raymond Lockard of Kislo, R.C. to Malaya where he has weeked for 4 years to inventigate the causes and find a cure for the disease which is known throughout the entity effect-growing world.

Now that he has isolated the cause of the disease, Dr. Lockard and his American-born wife live in a bung-lockard is working on a strice of tests to control the analysis of five and the control of Kunh Lumpur, capital city of supply of nutrients to his time speciational nice-plots. Milaya, A Milayan servant hings them glasses of itself He has devised a dip method of sand culture whereby moritime can the implified in regulated quantities.

The family in Alalaya is an economic unit and when it is time to harvest the precious rice harvest everyone must help. The cut sheaves balanced by the young boy above will be carried to his village home where they will be threshed lanet on as the family's needs require. If Dr.

Lockard is successful iii his efforts to find a cure for the "Red Disease" as the Malayans call it, he will have suc-ceeded in raising the standard of living of almost one half of the world's population who depend on rice. Naisonal Film Board of Canada Photos by Richard Harrington.

NOT SAFE TO BE AT LARGE

We have always felt that one of the valid reas which can be adva ed for the retention of the death

which can be advanced for the retention of the death penalty for morter is that cooling and the second penalty of the second will not kill again.

We suppose that, carrying this argument to its judgeal conclusion, the sky-year-old flexas boy who kicked as fire-week-old baby to death ought to be excuted. No civilized person, though, could accept such a suggestion. The reason is not hard to find. Tigers Face Old Nemesis In Yanks Today; New Hurler Giant Choice

Sport Slices

RARE, MEDIUM, WELL-DONE By GEO. H. CARVER, Sports Editor

But this stuff it at emanates from one who signs himse corpe ingile, sports editor set the Kelowan Gourier, in a little one than even a strong stomach can stand.

According to this lugth character the McFarlands are not more than a branch of highwaymen, or quote "n hunch of your-method delinqueste galying the game in

He charges Raieren Raberta III the second game of the series, mando a "king-stard book of hinself when he handed Emilt a match penalty for slacking Entalty screen the isgs, there went on to ignore three bratal and nesser-moditated attacks on the Packers by slick-wielding, rule-ficasting Mont.

After that 6-0 defeat he wrote: "The Belleville Mans pewed conclusively that their gitter was not gold, but turnished heran. Riding on non-game streak they well into last night's game all funs and feathers. They came

"Disidainful," be wrote, "gress disregard of the Macs for rules and sportsmanship, the Parkers rolled them right into-the ice, handling them a 6-0 waxing in the process." He goes on:

"On Moordly night when the Macs get inchy, banging in three flake peals and one fine marker, the Factor continued to play the game with the same riens attitude toward the game that has made them champions this year and borkey players every year.

"Last night when the Macs got one goal down, they shower themselves to be psycopathically inclined towards taking the Alian Cup home with them, no matter what the cost in blood

"Thry managed to get a small pleas of the Packers last night, also, when big Andy McCallimm suffered a broken check bone fram a butlend by Reith ManDonald, but it didn't affect the sum tolat any.

To the Packers' credit, they are not a bunch of lilles, but they continued to play the game last night, in spite of the flagmanity unbalanced administration of the game by re-ferce Roberts and the continued crippy and brutal backer sactic diplayared by the Relevitle citu.

"Had the Parkers wished to empaye in a meley, they could grobably have wiped up the fee with the smaller eith from Onlairs, but they choose to play hecker. Such a dautsion in a series that is emblematic of the pissacle in senser "A" backey can only be termed ominatedable, "They upshed our western home listed:

"On the hade of play, adde from the other unplea-ant especies of the content, the Peckers showed the Mann that they wearn't even in the same league. On Menday might, the Probure had a 3-hame off-slight, and the Mone probably figured that they had seen the winters champs

"Last night, the Fachers showed an ability which make the lifest look tawdry in comparison. They col-played the Man, they cet-shot them, out-soored them and gave them one of the overcest trimings a cits has taken in Allan Cup play, making the eastern champe took

"Even the Macs' hoosters would have been hard-present find anything less than admirable in the Packers' ac-tions. They pointed up conclusively the facts of the con-jecture regarding the relative abilities of castern and western bookey lesgues.

"The best of the east looked like an indifferent in-termediate club has night and their sports writers must have found it hard to violicate their actions, as per-pertedly those of champions.

"However, they were up against a hunch of cham as, and by comparison they looked pale.

"Whatever the outcome of this series, nothing could remove the blot on the exemisheon of the eastern on of this country, indelibly implanted there by their series in the game of ice beckey."

"Macs? They proved to, be a bunch of cults."

But they hardly looked like "culin and intermediates" last night, whatever their faults otherwise. They went not there, and too by Bep Gudabilly, who played brilling-ly, came back strongly to win 4-2 and hop within striking

Whatever their faults and whatever they have been do-ing, if anything, against this crow of winged anger from Kelowan, we do not know but we have never lost falls the hockey sbillty, and they preved last aight that they guill have the potential, despite the fact they are crippied where it

So while there's life there is hope, and the lifest are not a braken ever yet. The win last night near impire them to further victory effect—and who known?—they may pull life Allia Cup out of the fire then.

ISRAEL TEN YEARS OLD

Last week Jews throughout the world celebrated e tenth anniversary of the birth of the independent state of Israel. To many, the mere fact that this infant state is still alive is amazing; that she is flourishing is little short of a miracle.

. The political wisdom of permitting the Jews to establish a homeland of their own in the troubled Middle East may be open to question. There are so many other areas of the world where land more richly endowed with material wealth, though not with memories, could have been set aside for the Jews, and indeed the nations of the world owed them much more than one manons of the world owed them much more than merely a chance to re-establish themselves in the long-lest Promised Land. But, despite the terrible record of centuries of persecution, in which the Nazi atrocities where merely the latest and blackest in a long roll-call of crimes, no nation was willing to welcome these ers seeking for a land they could call their own.

ers secting for a lain tary count can their own.

"Perhaps it was for the best. It is difficult to believe that any people not possessed by a sense of the fulfillment of prophecy, not spurred by religious fervor, could have accomplished what the people of Israel have done-in ten short years.

done in ten annor years.

These accomplishments have been made in spite of the fact that the new state has had to apportion a large table of the resources to defence. If she had had to lift herself by her boot-straps, the task would have been established by the state of the resources of the resources to defence. in neighbor of the control of the co sed cities and moided a nation.

That Israel's record is without blemish only those

blinded by faith will maintain. It is not given to men, of any faith, is act always with justice when they battle of any satis, it has a ways with place when they device injustice, it is show only love when met by hate, to always do as they would be done by. But there are few, even Emongst the Arabs, who if they are honest and speak from a knowledge of history will not admit that the piople of Iarael are more shrined against than sinning.

people of Irarel are more stanted against than sinning.

Blads considered poor and worn out. Given peace,
these peoples of differing faiths, differing cultures and
differing history, but of the sung-semilet stock, could
pursite an object lesson, for the whole world. It would
require a miracle of forgiveness and forebearance, but there have been miracies before in these lands.

THANK YOU, MR. FROST

Premier Leslie Frost has undoubtedly suddenly become the hero of every outdoors lover in Ontario.

On Saturday of last week Mr. Frost stated that some the forest roads in Algonquin Park are to be re-ened this year to the public, instituting a new policy opened this year to the public, instituting a new power of restricted access to some 2,700 square miles of fishing and camping territory.

It is hoped the public does not abuse this privilege

It is hoped the public does not abuse this privilege, that has been long in coming. For several years increas to the park has been tightly restricted to travely plant. Now, though early the park. Now, though, early will be able to veer from the begien path and use roads that once were open only fifter manager, unither companies and hydro crews.

17. We want more people to use Algonquin Park.

18md Mr. Froat. Three is no reason why a park.

**. "We want more people to use Algonquin Park." said Mr. Frost. "... There is no reason why a part of our population should be denied the use of the park. Opening roads will give everyone an equal opportunity to use these areas where we are spending a lot of public, money to develop beautiful forests and excellent fishing.

Let us remember Mr. Frost's words. One misplaced Edgaret butt or ignited match, one untended campfire or too many lost hikers and the park could be closed again.

Ancient and modern came together when X-rays were taken of the stones at Stonehenge to ensure they had no interior defects before being hotsted back to the positions in which they were first placed centuries ago. (Ottawa Journal.) JUST POLKS
